

FOR SALE – Lapierre Zesty 314 2011 – 50cm (large) - £1600

I'm selling my Zesty after only a year because the reality is that I'm too much of a roadie and just don't use it enough. Since buying it in July 2011, I have used it a grand total of 9 times! It is also far more bike than I need for the local trails I tend to visit.

The bike is in excellent condition, as you expect after only 9 rides. It does have a little heel rub on both the chain stays and a few very minor chips/scratches.

The bike is as per original spec, with the exception of the rear tyre, which has been swapped out for a Maxxis High Roller (as the original tyre wasn't very good!). The original Conti Race King 2.20 is available if wanted. Pedals on it are Shimano PD-M520, which are about 6 years old, and can be included if wanted/needed.

Photos of the bike here: <http://www.photobox.co.uk/album/1367642929>

The bike is available to view in Beith, and I would prefer collection, although by arrangement, I could meet in the Glasgow/West area.

The following is taken from the Evans Cycles site for the 2011 Zesty 314 (except the rear tyre), with a couple of links for frame geometry and sizing:

The Lapierre Zesty 314 2011 Mountain Bike is Lapierre's version of the newly emerging 'do it all' take it anywhere kind of bike. And they're hitting the nail on the head. Thanks to the patented OST rear suspension platform with 140mm of travel, the Zesty can take you anywhere and will make the climbs as enjoyable as the descents.

Frame:	ZESTY 314 Alloy 7005 SL OST 140mm
Rear Shock:	FOX Float R 200x57
Fork:	FOX 32 FRL Open Bath 140 White
Front Derailleur:	SHIMANO SLX 10S FDM66010E6X
